MEMORANDUM TO: Chairman Svinicki

FROM: Hubert T. Bell */RA/*
Inspector General

SUBJECT: AUDIT OF NRC'S OVERSIGHT OF SECURITY AT
DECOMMISSIONING REACTORS (OIG-17-A-09)

Attached is the Office of the Inspector General's (OIG) audit report titled *Audit of NRC's Oversight of Security at Decommissioning Reactors*. The audit objective was to determine whether NRC's oversight of security at decommissioning reactors provides for adequate protection of radioactive structures, systems, and components.

OIG found that NRC's oversight provides for adequate protection. However, NRC can improve its oversight by clarifying regulatory requirements related to the insider mitigation program and fatigue management for decommissioning licensees. The report makes recommendations to address the identified issues.

If you have any questions, please contact Dr. Brett M. Baker, Assistant Inspector General for Audits, at (301) 415-5915 or me at (301) 415-5930.
