Re: Nine Mile Point Unit 1
Docket 50-220
DPR-63

Gentlemen:

Your letter dated August 8, 1979 requested an analysis of the electric power systems at Nine Mile Point Unit 1. This analysis was performed in 1976-77 and has been provided to you by letters dated October 18, 1976, November 30, 1976 and July 14, 1977. This analysis was performed in accordance with the guidelines attached to your August 8, 1979 letter.

Your letter also requested that the adequacy of the onsite distribution system and the offsite grid be verified by test. This test has not been performed at Nine Mile Point Unit 1 to date. We will verify our analysis by test during the next refueling outage now scheduled for the Spring 1981 time period. Results will be submitted within 90 days after completion of the test.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

Donald P. Dise
