Re: Nine Mile Point Unit 1
Docket no. 50-220
DPR-63

Gentlemen:

Your letter dated September 27, 1979 requested Niagara Mohawk to commit to a valve qualification program. This is to demonstrate the operability of containment purge and vent valves following a design basis loss of coolant accident. Attached to that letter were guidelines for the qualification program.

We are currently evaluating these guidelines as part of the development of our qualification program. We will advise you as to the progress of our program by December 31, 1979.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

D. P. Dise
