Re: Nine Mile Point Unit 1  
Docket No. 50-220  
DPR-63

Dear Mr. Grier:

This letter provides an interim report relative to I.E. Bulletin 79-01 . We are presently proceeding with a testing program on electrical penetration connectors. The results of the program will provide documented evidence that these connectors will remain functional under all accident conditions. This is scheduled for the first quarter of 1980.

Very truly yours,
