Re: Nine Mile Point Unit 1  
Docket No. 50-220  
DPR-63

Gentlemen:

Our letter of December 17, 1979 indicated that we would modify the air operated containment vent and purge valves by January 31, 1980. Due to the necessity for a shutdown to install this modification, we will complete this item at our next scheduled shutdown anticipated to begin in early March, 1980. At that time we will provide physical modifications to limit the valve openings to no greater than 50 degrees.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

Donald P. Dise,  
Vice President, Engineering

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures that the financial statements are reliable and can be audited without issue.

In addition, it is crucial to review the accounts regularly to identify any discrepancies or errors. This proactive approach helps in catching mistakes early and prevents them from escalating into larger problems. The document also mentions the need for clear communication between all parties involved in the financial process.

Finally, the document concludes by stating that a strong financial foundation is essential for the long-term success of any business. By following these guidelines, organizations can ensure that their financial records are accurate, complete, and easy to understand.
