U. S. Nuclear Regulatory Commission
631 Park Avenue
King of Prussia, PA 19406

Dear Mr. Grier:

Re: Nine Mile Point Unit 2
Docket No. 50-410

Your November 2, 1979 I.E. Bulletin 79-25 requested information regarding failures of Westinghouse BFD relays in safety-related systems at Nine Mile Point Unit 2.

Our response to I.E. Circular 76-02 dated November 16, 1976 indicated that Westinghouse BFD relays are not used or planned to be used in any safety-related equipment at Nine Mile Point Unit 2. Further, to ensure that this equipment will not be used, this relay has been placed on the "Excluded Equipment List."

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

Gerald K. Rhode
Vice President
System Project Management
