Commission  
Washington, D.C. 20555

Re: Niagara Mohawk Power Corporation  
Nine Mile Point Nuclear Station,  
Unit No. 1, Docket No. 50-220

Dear Mr. Denton:

As counsel for Niagara Mohawk Power Corporation, I enclose the following:

(1) Three (3) originals and nineteen (19) copies of an Application for Amendment to Operating License to amend Sections 2.1.1 and 2.1.5 and Bases of the Environmental Technical Specifications to increase the maximum change in temperature across the main condenser inlet and the screenwell discharge bay to 35°F during normal Station operation.

Mr. Harold R. Denton  
Page Two  
July 16, 1980

(2) Forty (40) copies each of three (3) documents designated Attachments A, B, and C which set forth the requested changes in the Technical Specifications along with its technical basis, and supporting information, which demonstrates that the proposed change would have no safety or environmental significance and would not authorize any change in the types or any increase in the amount of effluents or any change in the authorized power level of the facility.

The proposed amendment to the Operating License has been evaluated and determined to fall within the definition of Class II of 10 C.F.R. §170.22; therefore, a check in the amount of \$1,200.00 is enclosed to cover the appropriate fee.

Very truly yours,

LeBOEUF, LAMB, LEIBY & MacRAE
