Inspection Summary:

Physical Security Inspection on June 23-27, 1980 (Report No. 50-220/80-06)

Areas Inspected: Routine, unannounced inspection by one regional based inspector of the implementation of the approved Physical Security Plan relative to Security Plan, Security Program Audit, Security Organization, Physical Barriers (PA/VA), Lighting, Access Control (PA/VA), Alarm Stations, Detection Aids, Assessment Aids, Communications, Testing and Maintenance, Compensatory Measures, Response, Locks, Keys and Combinations and Records and Reports. Followup on previous items of noncompliance.

The inspection involved 36 inspector-hours onsite by one NRC inspector.

Results: The licensee was found to be in compliance with NRC requirements within the 21 areas examined during the inspection except for the following one unresolved item: Security Organization - Reliability documentation on contractor screening for unescorted access. (Unresolved)
