Docket No. 50-410

Your July 31, 1980 I.E. Bulletin No. 80-19 and Revision 1 dated August 15, 1980 requested information regarding the use of mercury wetted relays at Nine Mile Point Unit 2. In response, C. P. Clare Model HG2X-1011 mercury-wetted relays are not used in the logic matrix of the Reactor Protection System at Nine Mile Point Unit 2.

Very truly yours,
