Dear Mr. Eisenhut:

Our October 27, 1980 letter provided a description of proposed modifications to the scram discharge system at Nine Mile Point Unit 1 and committed to compliance with the then existing Owner's Sub-group design and performance criteria. We also indicated we would inform your office by December 15, 1980, of any changes to the proposed modifications required as a result of further criteria developed by the Sub-group.

Since issuance of our October 27, 1980 letter, the Sub-group's criteria have been revised. Further review of the revised criteria is necessary before any commitment to compliance can be made. Niagara Mohawk will inform your office of the results of this review by January 15, 1981.

Very truly yours,  
NIAGARA MOHAWK POWER CORPORATION
