RE: Docket 50-220
I.E. Bulletin 76-06

Dear Mr. O'Reilly:

We are pleased to inform you that the safety related diaphragm operated relief valves addressed in your I.E. Bulletin 76-06 are not employed at our Nine Mile Point Unit 1 Nuclear Power Plant. Therefore, we feel no further reply is necessary.

Very truly yours,

Docket Nos. 50-333

50-220

Gentlemen:

The enclosed Bulletin, 76-07 is forwarded to you for information and action. A similar document entitled Circular 76-01, is being transmitted to each holder of a Construction Permit. Therefore, if you have a nuclear power plant in the construction stage, you will also receive a copy of Circular 76-01 which will require separate response. You will note that the significant difference between the two documents is the time allowed for response.

Inspection and Enforcement Bulletins have been and will continue to be limited to subjects considered to be of significance and which require prompt response. In the future Bulletins will be supplemented by Circulars as a communication medium where the subject matter is of lesser significance, immediacy, or for which a longer response time or no response may be acceptable.
