RE: REFERENCE TO YOUR LETTER OF APRIL 15, 1974

ENCLOSED FOR YOUR INFORMATION ARE TWO COPIES OF A PAPER

ENTITLED "NMR SPECTROSCOPY OF POLYMER SOLUTIONS"

WHICH APPEARED IN THE JOURNAL OF POLYMER SCIENCE

April 24, 1981

Mr. Thomas M. Novak  
Assistant Director for Operating Reactors  
Division of Licensing  
United States Nuclear Regulatory Commission  
Washington, D. C. 20555

Re: Nine Mile Point Unit 1  
Docket No. 50-220

Dear Mr. Novak:

This letter provides our response to your April 8, 1981 letter concerning environmental qualification of safety related electrical equipment at Nine Mile Point Unit 1.

We have reviewed your Staff's preliminary list of deficiencies contained in the letter's Appendices B and C. These deficiencies were previously considered in our November 3, 1980 and February 2, 1981 submittals. Therefore our previous conclusions remain unchanged, that the continued operation of Nine Mile Point Unit 1 is justified while deficiencies are resolved.

In view of the limited time for response, we have not developed comments on the text of the partial review. We will provide our comments as they are developed.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for ensuring the integrity of the financial statements and for providing a clear audit trail. The text also mentions that proper record-keeping is a key component of good internal control.

### 2. The second part of the document focuses on the role of the internal auditor. It describes how the internal auditor is responsible for monitoring and evaluating the internal control system to ensure it is operating effectively. This involves conducting regular audits and reporting any weaknesses to management.

3. The third part of the document discusses the importance of communication between management and the internal auditor. It states that management should provide the internal auditor with the necessary information and resources to perform their duties. Additionally, the internal auditor should keep management informed of any issues identified during the audit process.

4. The fourth part of the document discusses the importance of the internal control system. It explains that a well-designed internal control system can help to prevent and detect errors and fraud, and it can also improve the efficiency of the organization's operations. The text also mentions that the internal control system should be regularly reviewed and updated to reflect changes in the organization's environment.

5. The fifth part of the document discusses the importance of the internal control system in the context of the organization's overall risk management strategy. It states that the internal control system is a key component of the organization's risk management framework and it helps to identify and manage risks that could affect the organization's ability to achieve its objectives.

6. The sixth part of the document discusses the importance of the internal control system in the context of the organization's financial reporting. It states that the internal control system helps to ensure that the financial statements are accurate and reliable, and it also helps to ensure that the organization is in compliance with applicable laws and regulations.
