**NY NIAGARA  
NM MOHAWK**

NIAGARA MOHAWK POWER CORPORATION/300 ERIE BOULEVARD WEST, SYRACUSE, N.Y. 13202/TELEPHONE (315) 474-1511

July 1, 1981

Mr. Darrell G. Eisenhut, Director  
Division of Licensing  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Eisenhut:

Re: Nine Mile Point Unit 1  
Docket No. 50-220  
DPR- 63

In response to NUREG 0737, Item II.D.1, a letter dated July 1, 1981, from Mr. T. J. Dente, Chairman of the BWR Owners Group transmitted to you the preliminary generic BWR Safety/Relief Valve Test program results. The Nine Mile Point Unit 1 design utilizes the Dresser Electromatic Relief Valve, Model No. 1525VX, which was tested in the BWR Owners Group Safety/Relief Valve Test Program.

Based on our preliminary review of the generic BWR Safety/Relief Valve Test Program results, the operational adequacy of the Dresser Electromatic Relief Valves for Nine Mile Point Unit 1 has been demonstrated. A final report of the Safety/Relief Valve performance testing will be provided by October 1, 1981.

Very truly yours,

NIAGARA MOHWAK POWER CORPORATION

D. P. Dise  
Vice President Engineering
