Washington, D.C. 20555

Re: Nine Mile Point Unit 1  
Docket No. 50-220  
DPR-63

Dear Eisenhut:

Niagara Mohawk's letter dated March 25, 1981 regarding NUREG 0737 Item II.B.4 transmitted the training program outline which Niagara Mohawk is utilizing to satisfy this NUREG 0737 requirement at Nine Mile Point Unit 1. This letter indicated that the training program would be completed by October 1, 1981. However, 4 individuals out of a total of 141 required to participate in all or part of the training program have not been able to attend the mitigating core damage training session.

These individuals were unable to be scheduled for this training due to the spring 1981 refueling outage, vacations and work on other Nuclear Regulatory Commission commitments. These individuals will complete the required training by November 30, 1981.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
