RE: Docket No. 50-220
Nine Mile Point Nuclear Station Unit #1

Dear Mr. Haynes:

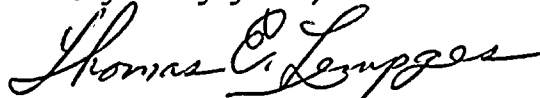

During the period of August 17 through 27, 1981, an appraisal of the NMPNS Emergency Preparedness Program (Inspection Number 81-18) was performed by members of your staff. As a result of that appraisal, a commitment was made to provide your staff with a list of qualified personnel able to perform the duties specified in our emergency plan. The purpose of this letter is to transmit the aforementioned information.

Please find attached an approved list of qualified personnel segregated by functional areas, who could perform the duties required by our current Emergency Plan and Procedures.

This list will be updated as needed and maintained at each of our emergency response facilities to provide guidance to emergency personnel relative to individuals qualified to perform emergency tasks.

It is our belief that this list and its associated distribution satisfies the commitment made to your staff on August 27, 1981.

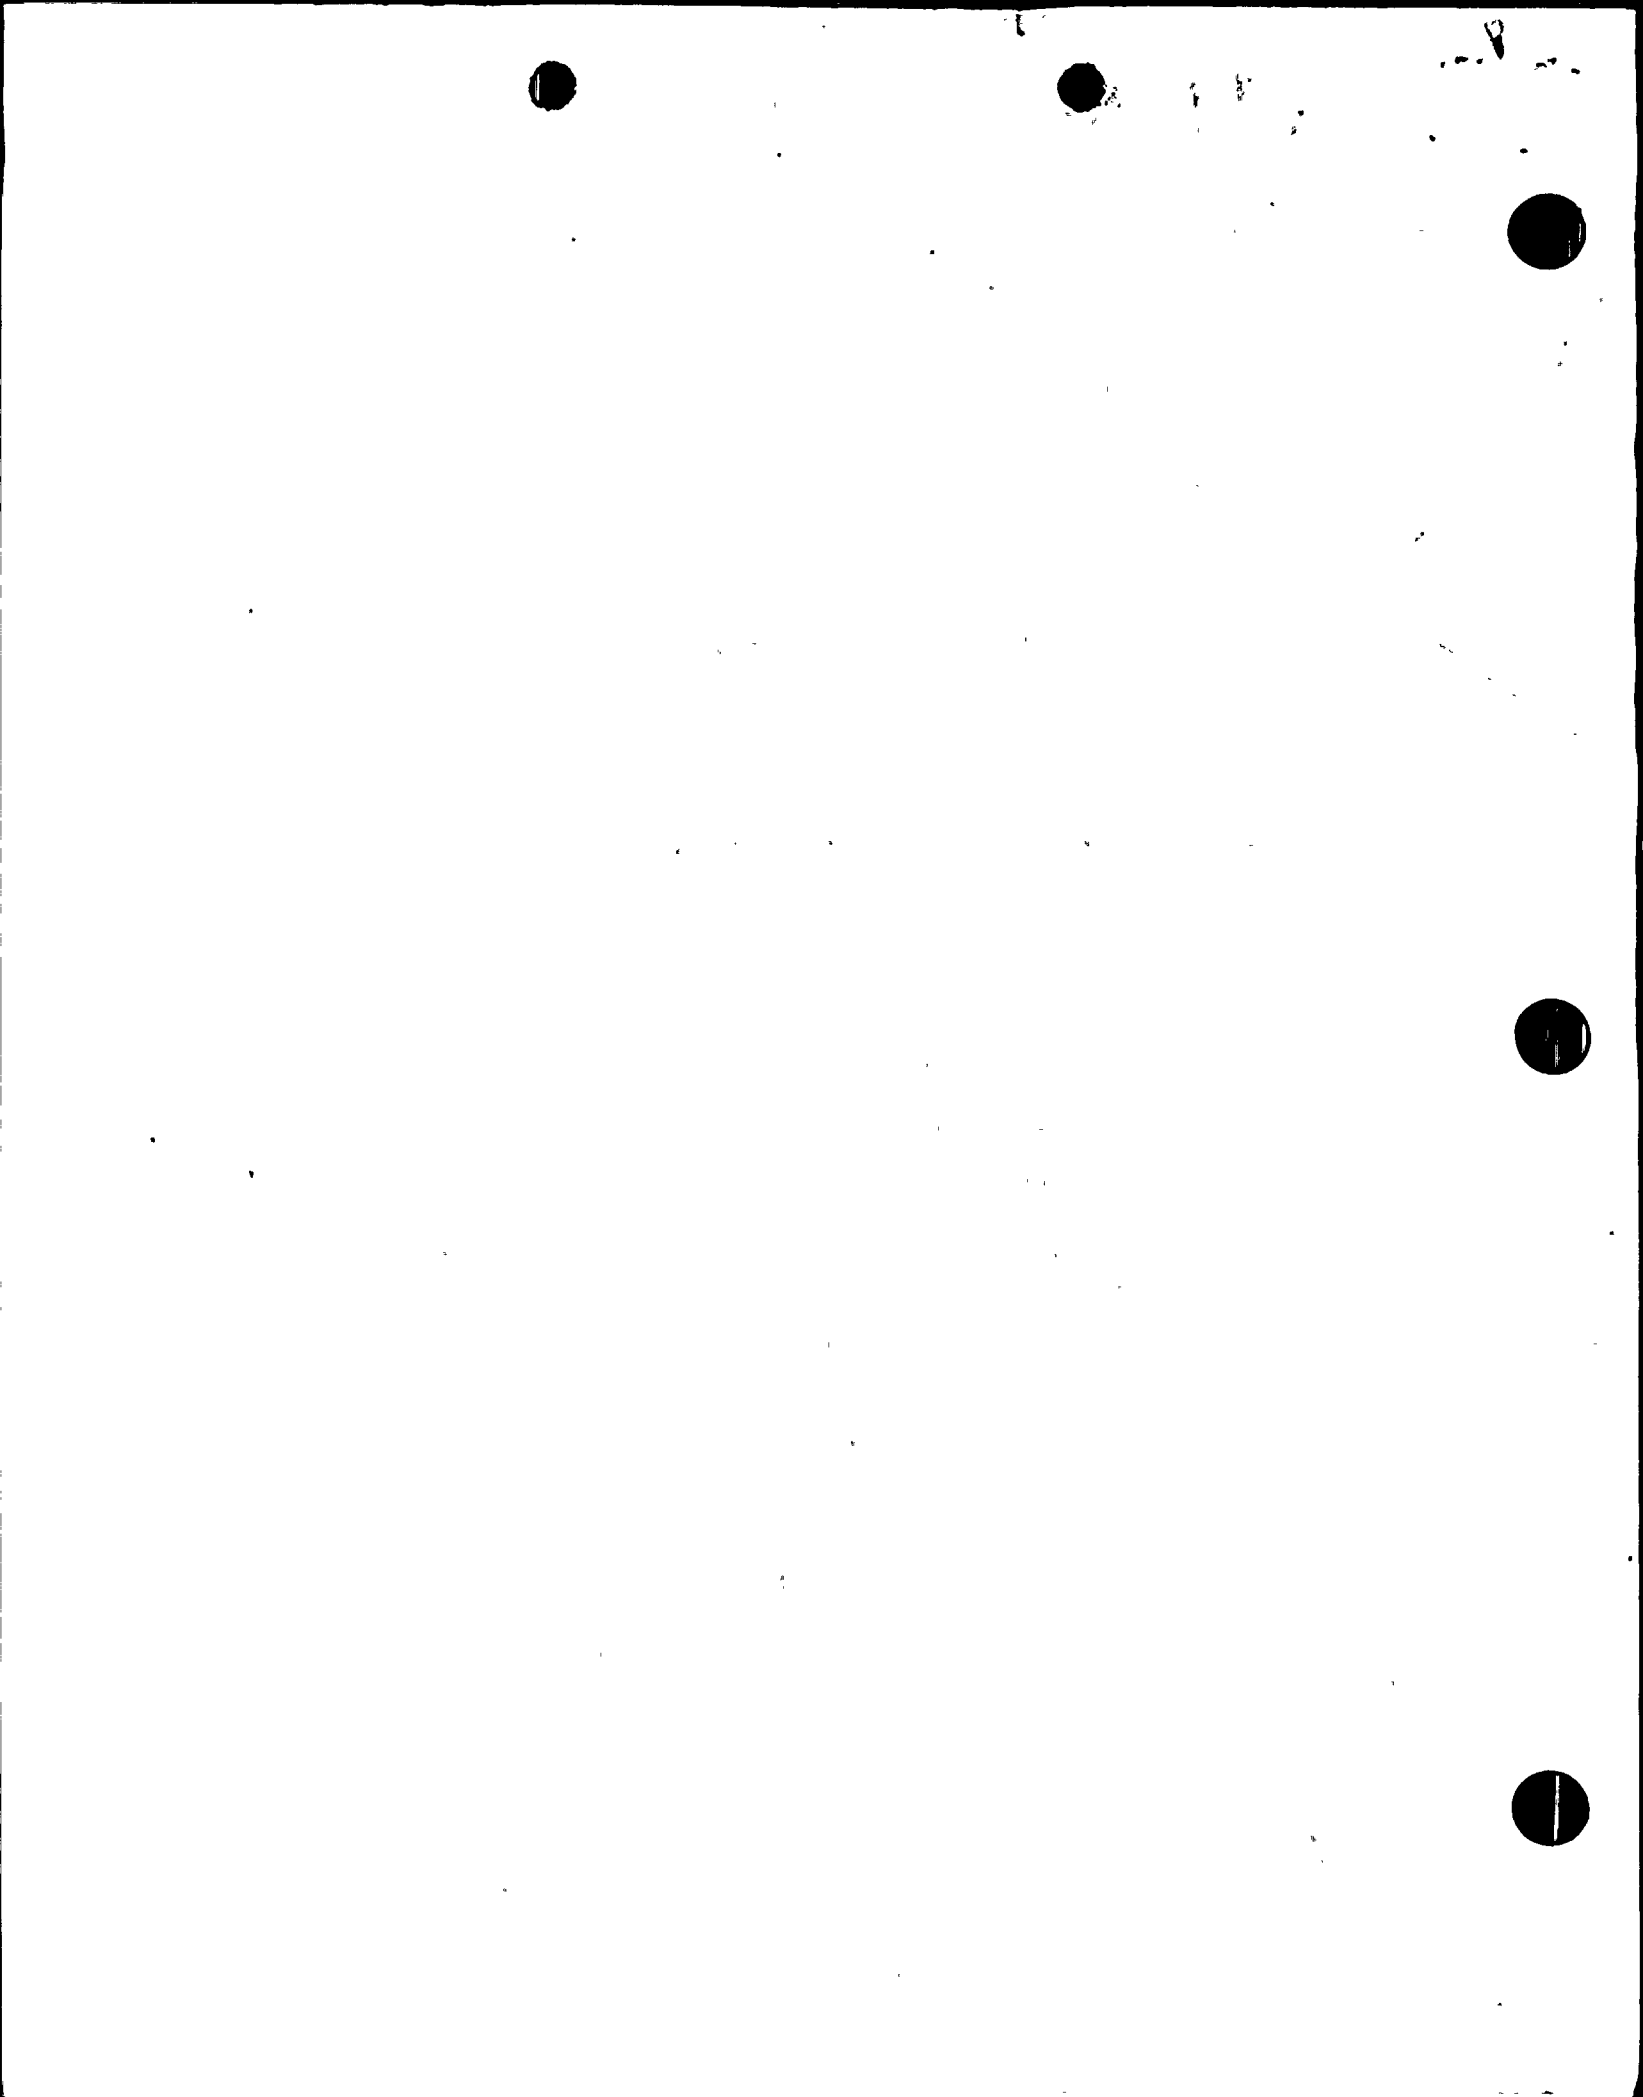

Very truly yours,

Thomas E. Lemppes
Vice President -
Nuclear Generation
