

APPENDIX A
NOTICE OF VIOLATION

Niagara Mohawk Power Corporation
Nine Mile Point, Unit 2

Docket No. 50-410
License No. CPPR-112

As a result of the inspection conducted October 13, 1981 to November 13, 1981, and in accordance with the Interim Enforcement Policy, 45 FR 66754 (October 7, 1980), the following violations were identified:

- A. 10CFR50, Appendix B, Criterion V states, in part, "Instructions, procedures or drawings shall include appropriate quantitative or qualitative acceptance criteria for determining that important activities have been satisfactorily accomplished."

The Nine Mile Point, Unit 2, PSAR, Appendix D, Quality Assurance Program, Paragraph D.3.3, states, in part, "The program also includes control of material, structures or components to ensure that these items have met predetermined requirements."

Contrary to the above, on November 6, 1981, the inspector discovered a completed weld data report on Weld #6, RCIC ISO 57-6, with hold point acceptance by the Q. C. Welding Inspector of fit-up and weld out, however, the spool pieces covered by the weld data report were still in storage in the containment building in an unwelded condition.

This is a Severity Level V Violation (Supplement II).

- B. 10CFR50, Appendix B, Criterion XVI states, in part, "In the case of significant conditions adverse to quality, the measures shall assure that the cause of the condition is determined and corrective action taken to preclude repetition."

The Nine Mile Point, Unit 2, PSAR, Appendix D, Quality Assurance Program, Paragraph D.3.3, states, in part, "The total program conforms with the provisions of the Code of Federal Regulations, Part 10CFR50, Appendix B, effective July 27, 1970, which covers Quality Assurance Criteria for Nuclear Power Plants."

Contrary to the above, the cause for thirty five (35) nonconformances written by Stone and Webster between August 11, 1980 and May 31, 1981 relating to concrete curing were not properly determined nor was adequate corrective action taken to preclude repetition.

This is a Severity Level V Violation (Supplement II).

Pursuant to the provisions of 10 CFR 2.201, Niagara Mohawk Power Corporation is hereby required to submit to this office within thirty days of the date of this Notice, a written statement or explanation in reply, including: (1) the

corrective steps which have been taken and the results achieved; (2) corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved. Under the authority of Section 182 of the Atomic Energy Act of 1954, as amended, this response shall be submitted under oath or affirmation. Where good cause is shown, consideration will be given to extending your response time.

The responses directed by this Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Dated DEC 03 1981

Richard W. Starostecki, Director,
Division of Resident and Project
Inspection
