Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Dear Mr. Ippolito:

Our letter of September 11, 1981, which requested schedular relief for fire protection modifications, indicated that the final control for the ventilation smoke purge system would be completed by December 30, 1981. Currently, portions of this system are controlled from temporary panels. As indicated in our letter, this modification is not a requirement of the Fire Protection Safety Evaluation Report which accompanied Amendment 33. Your staff has concurred in this opinion.

The purpose of this letter is to inform you that the final control system will not be completed by December 30, 1981. The final control system will be installed as soon as reasonably achievable.

Very truly yours,

D. P. Dise
Vice President, Engineering
