Docket No.: 50-410

Mr. Gerald K. Rhode
 Vice President, System Project Management
 Niagara Mohawk Power Corporation
 300 Erie Boulevard West
 Syracuse, New York 13202

Dear Mr. Rhode:

Subject: Information Regarding the Quality Assurance Organization for
 Nine Mile Point, Unit 2

We have received your letter dated January 22, 1982, in which you indicate that you have modified your tentative plans for a Project Quality Organization previously outlined in your letter of November 24, 1981. The attachment to your January 22nd letter indicates that this new unit will now be known as a Compliance and Verification Unit. Both the attachment and the letter itself state that this new unit will function separately from, and not alter in any way, the Corporate Quality Assurance Program already established for Nine Mile Point, Unit 2.

Based on your statement that the Corporate QA Program will remain unchanged from that which was approved at the CP stage, we find that there is no need for us to review and approve the changes within your modified project organization. Accordingly, we have no objection to the immediate implementation of your modified project organization.

Sincerely,

A. Schwencer, Chief
 Licensing Branch No. 2
 Division of Licensing
