Re: Nine Mile Point Unit 1  
Docket No. 50-220  
DPR-63

Dear Mr. Eisenhut:

Our letter of April 1, 1981 provided our response to NUREG 0737 Item II.K.3.18. In that letter we indicated that we would provide a description of the proposed modification to the Automatic Depressurization System logic for staff approval by April 1, 1982.

However, as indicated on the February 5, 1982 letter from Mr. T.J. Dente, Chairman BWR Owners' Group to Mr. Darrell G. Eisenhut, a delay in submittal of this information is required. This delay is required to consider the effect of ATWS and the BWR Emergency Procedure Guides in the final Automatic Depressurization System logic design.

Therefore, a description of the proposed modification to the Automatic Depressurization System logic will be submitted by September 30, 1982.

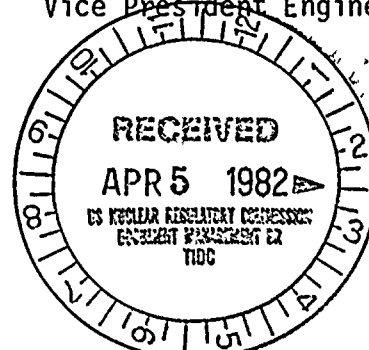

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
