DPR-63

Dear Mr. Vassallo:

In our September 30, 1981 letter we described our program to address the verification of adequate core spray distribution in steam environments. We committed to provide the results of that program by June 30, 1982, for your review.

Niagara Mohawk has not completed its review of the results of this evaluation. Accordingly, we plan to submit the results of this program for your review by August 31, 1982.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
