Re: Nine Mile Point Unit 2
Docket No. 50-410

Dear Mr. Eisenhut:

Niagara Mohawk's letter of December 30, 1981 indicated that a schedule for environmental qualification testing of equipment supplied by our nuclear steam system supplier would be submitted by June 30, 1982. Although an overall schedule for completing the environmental testing of equipment has been developed by our nuclear steam system supplier, a detailed schedule for testing of individual pieces of equipment has not been developed. This detailed schedule will be provided by August 31, 1982.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
