Docket No. 50-220  
DPR-63

Dear Mr. Vassallo:

Your letter of April 26, 1982 requested additional information regarding Sections III G. and III L. of Appendix R to 10 CFR 50. The enclosed report entitled "Appendix R Review Safe Shutdown Analysis" is provided in response to your request. In addition, we are in the process of completing our final verification supporting these results.

Highlighted drawings of connections of the alternate shutdown system to the normal shutdown system have been provided by separate cover. This is in response to Enclosure 2, Attachment 1, item (c) of our April 26, 1982 letter.

In accordance with our commitment in our July 22, 1982 letter, the 125 volt DC system analysis for breaker-fuse coordination is currently underway and will be completed by December 31, 1982.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
