Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Gentlemen:

Your letter of August 9, 1982 requested final submittal of the Radiological Effluent Technical Specifications (RETS) and an Offsite Dose Calculation Manual (ODCM) for Nine Mile Point Unit 1. Due to the current recirculation system replacement project, our review of the Technical Evaluation Report (TER), "Comparison of Plant and Model Radiological Effluent Technical Specifications and Plant Offsite Dose Computational Manual, Nine Mile Point Nuclear Station Unit 1," dated June 21, 1982 has not been completed.

It is estimated that this review will be completed by November 30, 1982 at which time we will inform you of the results.

Sincerely,

T. E. Lempges
Vice President - Nuclear Generation
