Docket No. 50-220
DPR-63

Dear Mr. Vassallo:

Our letter of October 1, 1982 indicated that the 125 volt DC system analysis for breaker fuse coordination would be completed by December 31, 1982. However, due to the extensive nature of the analysis, the results will not be completed until February 1, 1983. When the analysis is completed we will submit the results to your staff.

Very truly yours,

C. V. Mangan
