U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Re: Nine Mile Point Unit 1  
Docket No. 50-220  
DPR-63

Gentlemen:

Your letter of December 23, 1982 regarding Environmental Equipment Qualification at Nine Mile Point Unit 1 required the following two reports:

1. Thirty Day (30) Report

This report requires that we provide justification for continued operation on items for which they were not previously supplied. Our letter of January 24, 1983 indicated that this would be supplied by March 1, 1983. The purpose of this letter is to inform you that this information will be provided by April 15, 1983.

2. Ninety Day (90) Report

This report requires that we provide a list of qualified equipment and a schedule for qualifying or replacing the remaining equipment. Subsequent to your letter, the final rule 10 CFR 50.49 was approved by the Commission. That rule required submittal of the same information by May 20, 1983. As discussed with members of your staff, Niagara Mohawk will submit this information in accordance with the schedule outlined in 10 CFR 50.49.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
