Dear Mr. Rhode:

SUBJECT: MODIFICATIONS AND ALTERNATE SAFE SHUTDOWN CAPABILITY TO COMPLY WITH THE REQUIREMENTS OF APPENDIX R

Re: Nine Mile Point Nuclear Station, Unit No. 1

We have completed our review of your submittals regarding your proposed modifications and alternate safe shutdown capability against the requirements of Section III.G.3 and III.L of Appendix R to 10 CFR Part 50. We have concluded that your proposed modifications and alternate safe shutdown capability for the Nine Mile Point Nuclear Station, Unit No. 1, meet the requirements of Section III.G.3 and III.L of Appendix R for fire areas within the control complex and are therefore acceptable. Based on this approval, the required schedule for implementation is as given in Paragraph 50.48(c)(4) to 10 CFR Part 50.

The bases for our findings are contained in the enclosed Safety Evaluation.

Sincerely,
