Washington, D.C. 20555

Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Dear Mr. Vassallo:

Additional information regarding the structural features of the Alternate Emergency Operations Facility has been requested by members of your staff. As discussed in our letter of June 7, 1982, the Niagara Mohawk Service Center located in the Town of Volney, Oswego County, has been designated as the Alternate Emergency Operations Facility. The building is normally used as an electrical maintenance service center. The building is a steel pre-fabricated structure with a steel frame and metal siding. It has a concrete foundation, and a six inch thick floating concrete slab floor.

Very truly yours,

C. V. Mangan

C. V. Mangan
Vice President
Nuclear Engineering & Licensing
