Attention: D. G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Dear Mr. Eisenhut:

The attached report regarding occupational dose received during the recirculation system replacement is submitted in accordance with the requirements of Amendment 50 to Operating License DPR-63. This report covers the period from January through March 1983 and satisfies the requirements of Operating License paragraph 2.d(6)c and d.

Sincerely,

C. V. Mangan

C. V. Mangan
Vice President
Nuclear Engineering & Licensing
