Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission

Dear Mr. Eisenhut:

Re: Nine Mile Point Unit 1
Docket No. 50-220
.....DPR-63.....

This letter is to request an extension of time to submit a response to Generic Letter 83-28 for Nine Mile Point Unit 1 and to endorse the Boiling Water Reactors Owners Group response to the generic letter dated September 2, 1983. We are also participating in the Group's generic evaluation. In parallel with the Boiling Water Reactors Owners Group program, we are assessing the capabilities of our plant with respect to the proposed actions resulting from the Salem event. We are also participating in a Nuclear Utility Task Action Committee organized under the direction of INPO to address portions of the request.

After completion of the Boiling Water Reactors Owners Group and Nuclear Utility Task Action Committee recommendations, we will furnish a status of current compliance with the positions of the letter, and plans and schedules for any needed improvements. This will be submitted on or before February 29, 1984.

Very truly yours,

T. E. Lempges
Vice President - Nuclear Generation
