Mr. Darrell G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Eisenhut:

Re: Nine Mile Point Unit 2
Docket No. 50-410

The purpose of this letter is to request an extension of time to submit a response to Generic Letter 83-28 for Nine Mile Point Unit 2. We are a member of the Boiling Water Reactors Owners Group and have endorsed their response to this generic letter, and are participating in the Group's generic evaluation. In parallel with the Boiling Water Reactors Owners Group program, we are assessing the plant design with respect to the proposed actions resulting from the Salem event.

While participating in the Boiling Water Reactors Owners Group program, we will evaluate our plant's capabilities in more detail. Upon completion of the Boiling Water Reactors Owners Group guidelines for assessing plant capabilities, we will: (1) furnish a status of current compliance with the positions of the letter; and (2) provide plans and schedules for any needed improvements to achieve conformance. The program and schedules for this will be submitted on or before February 29, 1984.

Very truly yours,

C. V. Mangan

C. V. Mangan
Vice President
Nuclear Engineering and Licensing
