Re: Nine Mile Point Unit 1
Docket No. 50-220
.....DPR-63.....

Dear Mr. Denton:

Niagara Mohawk Power Corporation hereby transmits three originals of an application for an amendment to Nine Mile Point Unit 1's Operating License DPR-63. Also enclosed are 40 copies of the proposed change to the Technical Specifications in Appendix A of the above mentioned license.

The proposed Technical Specifications contained herein pertain to limits on the Minimum Critical Power Ratio. The change requested is to conservatively increase these limits to allow for cycle to cycle variations in analysis results.

Pursuant to 10CFR50.91(b)(1), we have provided a copy of this license amendment application and the associated analysis regarding no significant hazard considerations to the appropriate state representative as outlined in your May 2, 1983 Generic Letter 83-19.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
