are a number of items consisting of emergency response facility operability, emergency procedure implementation, addition of instrumentation, possible control room design modifications, and specific information to be submitted.

On December 17, 1982, a letter (Generic Letter 82-33) was sent to all licensees of operating reactors, applicants for operating licenses, and holders of construction permits enclosing Supplement 1 to NUREG-0737. In this letter operating reactor licensees and holders of construction permits were requested to furnish the following information, pursuant to 10 CFR 50.54(f), no later than April 15, 1983:

- (1) A proposed schedule for completing each of the basic requirements for the items identified in Supplement 1 to NUREG-0737, and
- (2) A description of plans for phased implementation and integration of emergency response activities including training.

III.

Niagara Mohawk responded to Generic Letter 82-33 by letter dated April 15, 1983. By letter dated July 7, 1983, Niagara Mohawk modified a date as a result of negotiations with the NRC staff. By letter dated September 30, 1983, Niagara Mohawk provided a firm completion date for the final summary report and schedule for the detailed control room design review. In these submittals, Niagara Mohawk made commitments to complete the basic requirements. By letter dated February 1, 1984, Niagara Mohawk provided the following: firm completion dates for the fully operational Safety Parameter Display System and Emergency Operations Facility; informed the NRC the Operational Support Center is fully functional; and committed to providing a firm

- 3 -

completion date for the Technical Support Center by May 1, 1984. The attached Table summarizing Niagara Mohawk's schedular commitments or status was developed by the NRC staff from the Generic Letter and the information provided by the licensee.

Niagara Mohawk's commitments include (1) dates for providing required submittals to the NRC, (2) dates for implementing certain requirements, and (3) a schedule for providing implementation dates for other requirements. These latter implementation dates will be reviewed, negotiated and confirmed by a subsequent order.

The NRC staff reviewed Niagara Mohawk's April 15, 1983 letter and entered into negotiations with the licensee regarding schedules for meeting the requirements of Supplement 1 to NUREG-0737. As a result of these negotiations, the licensee modified certain dates by letters dated July 7 and September 30, 1983 and February 1, 1984. The NRC staff finds that the modified dates are reasonable, achievable dates for meeting the Commission requirements. The NRC staff concludes that the schedule proposed by the licensee will provide timely upgrading of the licensee's emergency response capability.

In view of the foregoing, I have determined that the implementation of Niagara Mohawk's commitments are required in the interest of the public health and safety and should, therefore, be confirmed by an immediately effective Order.

IV.

Accordingly, pursuant to Sections 103, 161i, 161o and 182 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Parts 2 and 50, IT IS HEREBY ORDERED, EFFECTIVE IMMEDIATELY, THAT the licensee shall:

Implement the specific items described in the Attachment to this ORDER in the manner described in Niagara Mohawk's submittals noted in Section III herein no later than the dates in the Attachment.

Extensions of time for completing these items may be granted by the Director, Division of Licensing, for good cause shown.

V.

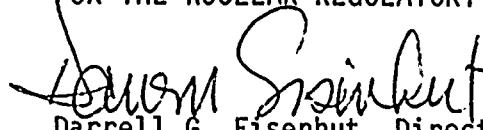

The licensee may request a hearing on this Order within 20 days of the date of publication of this Order in the Federal Register. Any request for a hearing should be addressed to the Director, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. A copy should also be sent to the Executive Legal Director at the same address. A REQUEST FOR HEARING SHALL NOT STAY THE IMMEDIATE EFFECTIVENESS OF THIS ORDER.

If a hearing is to be held, the Commission will issue an Order designating the time and place of any such hearing.

If a hearing is held concerning this Order, the issue to be considered at the hearing shall be whether the licensee should comply with the requirements set forth in Section IV of this Order.

This Order is effective upon issuance.

FOR THE NUCLEAR REGULATORY COMMISSION

Darrell G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulation

Dated at Bethesda, Maryland,
this 12 day of June, 1984.

LICENSEE'S COMMITMENTS ON SUPPLEMENT 1 TO NUREG-0737

TITLE	REQUIREMENT	LICENSEE'S COMPLETION SCHEDULE (OR STATUS)
1. Safety Parameter Display System (SPDS)	1a. Submit a safety analysis and an implementation plan to the NRC.	January 1, 1984 (Submitted)
	1b. SPDS fully operational and operators trained.	1986 Refueling Outage
2. Detailed Control Room Design Review (DCRDR)	2a. Submit a program plan to the NRC.	October 1, 1983 (submitted)
	2b. Submit a summary report to the NRC including a proposed schedule for implementation.	January 1, 1985
3. Regulatory Guide 1.97 - Application to Emergency Response Facilities	3a. Submit a report to the NRC describing how the requirements of Supplement 1 to NUREG-0737 have been or will be met.	April 1, 1984 (Submitted)
	3b. Implement (installation or upgrade) requirements.	Complete

LICENSEE'S COMMITMENTS ON SUPPLEMENT 1 TO NUREG-0737

TITLE	REQUIREMENT	LICENSEE'S COMPLETION SCHEDULE (OR STATUS)
4. Upgrade Emergency Operating Procedures (EOPs)	4a. Submit a Procedures Generation Package to the NRC.	March 1, 1984 (Submitted)
	4b. Implement the upgraded EOPs.	1986 Refueling Outage
5. Emergency Response Facilities	5a. Technical Support Center fully functional.	Submit a firm completion date by May 1, 1984. C
	5b. Operational Support Center fully functional.	Complete February 1, 1984
	5c. Emergency Operations Facility fully functional.	December 31, 1985
