The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes both manual and automated processes. The goal is to ensure that the information is both reliable and up-to-date.

The final part of the document provides a summary of the findings and offers recommendations for future improvements. It suggests that regular audits and updates to the data collection process are essential for maintaining the highest level of accuracy.

The data collected over the past six months shows a steady increase in sales volume, particularly in the electronics and software sectors. This growth is attributed to a combination of factors, including targeted marketing campaigns and improved customer service.

However, there are also areas where performance has lagged. For example, the retail sector has seen a decline in sales, which may be due to increased competition and changing consumer preferences. Further analysis is required to identify the root causes and develop effective strategies to address these challenges.

Overall, the data indicates a positive trend for the company, but it also highlights the need for continuous monitoring and adaptation to market changes. By staying vigilant and responsive, the company can continue to achieve its long-term goals.

Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Dear Mr. Vassallo:

Niagara Mohawk Power Corporation hereby transmits three originals of an application for an amendment to Nine Mile Point Unit 1's Operating License DPR-63. Also enclosed are 40 copies of the proposed change to the Technical Specifications in Appendix A of the above mentioned license. Pursuant to 10CFR170.12, a one hundred fifty dollar (\$150.00) application fee is enclosed.

Pursuant to 10CFR50.91(b)(1), we have provided a copy of this license amendment application and the associated analysis regarding no significant hazard considerations to the appropriate state representative as outlined in your Generic Letter 83-19, dated May 2, 1983.

Sincerely,

NIAGARA MOHAWK POWER CORPORATION

C. V. Mangen
