February 12, 1985
(NMP2L 0339)

Mr. A. Schwencer, Chief
Licensing Branch No. 2
Division of Licensing
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Schwencer:

Re: Nine Mile Point Unit 2
Docket No: 50-410

In response to your January 22, 1985 letter, Niagara Mohawk makes the following commitments:

1. The alternate damping values used for Nine Mile Point Unit 2 will be those described in ASME code case N-411.
2. The expected increased piping displacements (resulting from using damping values in ASME code case N411) will be verified when piping supports are moved, modified or eliminated. The verification will ensure that there will be no adverse interaction with adjacent structures, components and equipment.

The above commitments will be incorporated into the Final Safety Analysis Report in Amendment 18.

Very truly yours,

Cernanjan

C. V. Mangat
Vice President

Nuclear Engineering & Licensing
