

JUL 19 1985

Docket No. 50-410

Mr. B. G. Hooten
Executive Director of Nuclear Operations
Niagara Mohawk Power Corporation
300 Erie Boulevard West
Syracuse, New York 13202

Dear Mr. Hooten:

see 7/17/85 letter (draft Tech spec)

SUBJECT: FIRST DRAFT TECHNICAL SPECIFICATIONS ON NINE MILE POINT UNIT 2

Enclosed is a copy of the first draft of the Nine Mile Point 2 Technical Specifications. This first draft is based on the November 20, 1984 submittal from Mr. C. V. Mangan and subsequent discussions with members of your staff. This draft document will be the basis for a meeting at the Nine Mile Point 2 site the week of August 5, 1985 to discuss areas where additional information may be required to ensure that the final plant technical specifications are documented in the FSAR as accepted by the SER and reflect the "as-built" plant design.

If you have any questions concerning the enclosure, please contact the licensing project manager, Mary Haughey (301-492-7897).

Sincerely,

Original signed by

Walter R. Butler, Chief
Licensing Branch No. 2
Division of Licensing
