Gentlemen:

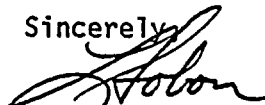

SUBJECT: NRC REQUESTS FOR ADDITIONAL INFORMATION, DFFR ROUND 3  
QUESTIONS

Reference: Letter L. J. Sobon to J. F. Stolz dated June 30, 1978,  
"Responses to NRC Request for Additional Information  
(Round 3 Questions)"

To date there have been three sets of NRC questions or requests for additional information regarding the Mark II Containment Dynamic Forcing Functions Information Report (DFFR), NEDO/NEDE 21061. When Revision 2 of the DFFR was issued, Appendix A was included as repository for responses to these questions. The responses to Round 3 questions were transmitted via Reference 1 noting that they would be incorporated into DFFR Revision 2 by an addendum. This addendum was not prepared because DFFR Revision 3 was already in preparation.

The purpose of this letter is to transmit seventy (70) copies of the complete set of Round 3 question responses which has been prepared in a format for direct insertion into Appendix A of DFFR Revision 3. This submittal is being made by General Electric on behalf of the Mark II Owners as part of the Mark II Containment Program under Task C.14.

Sincerely,

L. J. Sobon, Manager  
BWR Containment Licensing
