Mr. Jim Lyons, Chief
Technical and Operations Support Branch
Office of Nuclear Reactor Regulations
U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

SUBJECT: Westinghouse Need Dates for NRC Review and Approval of
Boiling Water Reactor (BWR) Topical Reports

REFERENCE: Letter from Mary F. Haughey (NRC) dated May 2, 1986 and
titled "Meeting Summary for April 24, 1986 Meeting with
Westinghouse to Discuss Westinghouse Core Reloads in BWRs
Specifically, Nine Mile Point 2"

ATTENTION: DOCUMENT CONTROL DESK

Mary F. Haughey, Project Manager
Division of BWR Licensing

Wayne Hodges, Chief
Reactor Systems Branch

Dear Mr. Lyons:

In the above reference, Westinghouse (W) was requested to specify the
required need dates for each of the (W) topical reports being submitted
for NRC review and approval to support (W) core reloads in Boiling Water
Reactors (BWRs). The enclosed Table 1 specifies these requested SER
dates in addition to the corresponding submittal dates for each topical
report.

These dates reflect several considerations, which are:

1. A need for final issuance and receipt of all SERs by the spring of
1989 to support Nine Mile Point Unit 2.
2. A need to smooth the schedule for SER issuance to obtain a workable
process; i.e., not to require 11 SERs due at one time.
3. The interdependence between the various topicals and their upcoming
applications.
