Dear Ms. Adensam:

Re: Nine Mile Point Unit 2
Docket No. 50-410
Current Fuel Load Target Date

During a recent meeting with Mr. A. Zallnick, our Manager of Nuclear Licensing, you requested that we provide an updated target date for our fuel loading at Nine Mile Point Unit 2. Based upon the current progress of our preoperational testing program and surveillance testing activities, we have currently targeted the date of August 15, 1986 for loading fuel at Nine Mile Point Unit 2. As we indicated in previous correspondence, the schedule for the final phases of the project is dependent upon the results of the testing program. We will continue to keep you and Region I informed of any further developments regarding this schedule.

Very truly yours,

T. E. Lempges
