Dear Ms. Adensam:

Re: Nine Mile Point Unit 2
Docket No. 50-410

Enclosed for your use and information are twenty-eight copies of the Nine Mile Point Unit 2 Zone Banding Study (color banding study). This study was performed as a result of the detailed Control Room Design Review. Specifically, this study was conducted to respond to Human Engineering Discrepancies 104 and 137.

As a result of the study certain meters will be enhanced by zone banding. As previously discussed with the NRC staff, temporary zone banding will be installed prior to exceeding 5 percent of power, and permanent zone banding will be installed prior to start up after the first refueling outage.

Very truly yours,

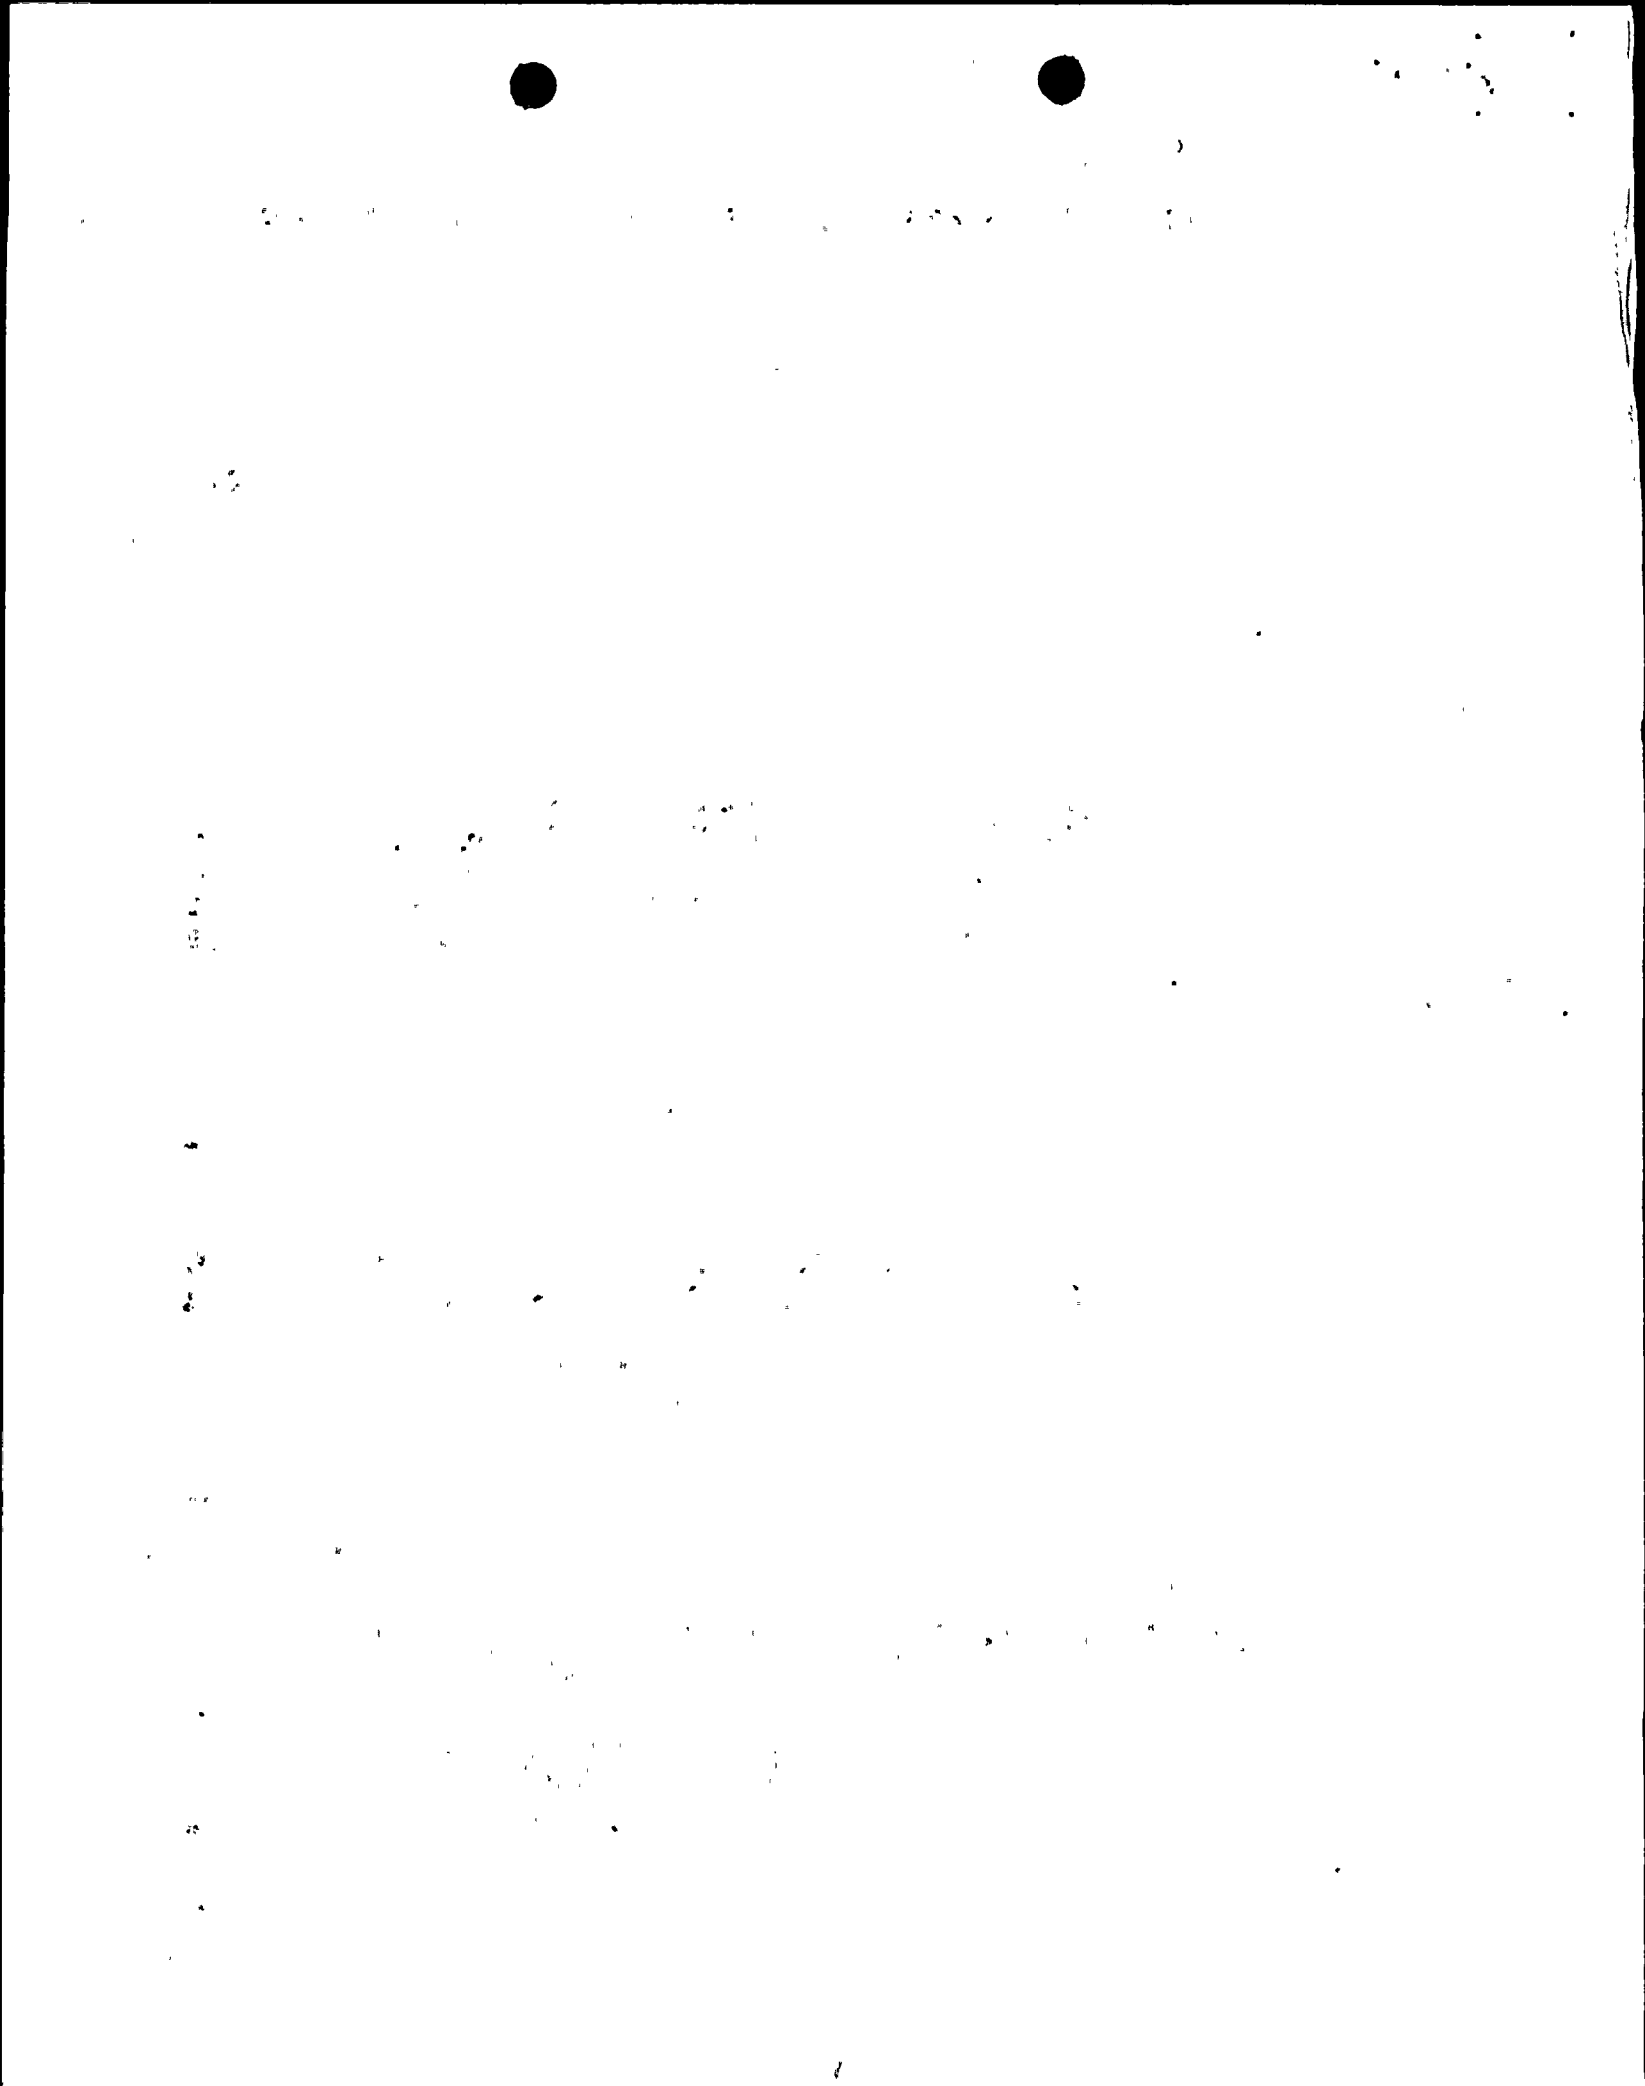

C. V. Mangan
