Ms. Elinor G. Adensam, Director
BWR Project Directorate No. 3
U.S. Nuclear Regulatory Commission
7920 Norfolk Avenue
Washington, DC 20555

Dear Ms. Adensam:

Re: Nine Mile Point Unit 2
Docket No. 50-410

Enclosed are the Niagara Mohawk comments in the draft low power license for Nine Mile Point Unit 2. This draft license was provided to us by your letter dated July 16, 1986.

Very truly yours,

T. E. Lempges
Vice President
Nuclear Generation

NUCLEAR REGULATORY COMMISSION

In the Matter of)
Niagara Mohawk Power Corporation)
(Nine Mile Point Unit 2))

Docket No. 50-410

AFFIDAVIT

T. E. Lempges, being duly sworn, states that he is Vice President of Niagara Mohawk Power Corporation; that he is authorized on the part of said Corporation to sign and file with the Nuclear Regulatory Commission the documents attached hereto; and that all such documents are true and correct to the best of his knowledge, information and belief.

T. E. Lempges

Subscribed and sworn to before me, a Notary Public in and for the State of New York and County of Onondaga, this 19th day of August, 1986.

Christine Austin
Notary Public in and for
Onondaga County, New York

My commission expires:

CHRISTINE AUSTIN
Notary Public in the State of New York
Qualified in Onondaga Co. No. 4787687
My Commission Expires March 30, 1987

CHRISTINE AUSTIN
Hotel Public in the State of New York
Qualified in Onondaga Co. No. 478237
My Commission Expires March 30, 19__

Comments on the
Draft Low Power License for
Nine Mile Point Unit 2

For clarification page 3 item c(1) second line, should read "facility at steady state reactor core power levels not in excess of 3323..."

For clarification page 4, 1st paragraph the line should read "pending commission approval, this license is restricted to steady state power levels not to....".

Page 6 the first "(11)" change to (10)

Page 6 item (11) Operation with Reduced Feedwater Temperature (Section 15.1 SSER4), first sentence after "facility" add "outside of the transient analysis documented in Chapter 15". Second sentence the words "After the first operating cycle," should be deleted.

Page 6 add item 13, which should discuss the Solid Radwaste system license condition discussed in SSER 3.

Page 7 item D (iii) The first sentence should read "An exemption to Appendix A to 10CFR Part 50 exempting the Control Rod Drive (CRD) hydraulic line (to the reactor recirculation pump purge) from General Design Criterion (GDC) 55." Refer to a Letter from law offices Conner & Wetterhahn dated May 15, 1985.

Page 8 add (e) after the (V)(d) Item (e) should read "An exemption permitting completion of the preoperational tests for the reactor coolant, ECCS leak detection system are to be delayed until prior to initial criticality." Refer to Niagara Mohawk letter dated May 7, 1986.

For information, page 9 item H, please ensure that the license reads 40 years from issuance of the operating license. (Refer to 1/25/83 application for operating license).

11-11-11

Page 4-1 of the Environmental Protection Plan, Section 4.1 third line, the words "within 24 hours followed by a written report" should be deleted. This should be a thirty day report.

Page 5-2 of the Environmental Protection Plan, Section 5.4.1 first paragraph first sentence, it is unclear who gets the Annual Environmental Operating Report. Please clarify the submittal requirements. The second paragraph is vague about the requirement. Is this asking for an evaluation of state reports or is it only asking for a copy of the report if there was monitoring required.

Page 5-3 of the Environmental Protection Plan, Section 5.4.2 nonroutine reports it says that "a written report shall be submitted to the NRC". Is this the Nuclear Reactor Regulation or the Region?

Handwritten scribbles and marks in the top right corner.
