Ms. Elinor G. Adensam, Director
BWR Project Directorate No. 3
U.S. Nuclear Regulatory Commission
7920 Norfolk Avenue
Washington, DC 20555

Dear Ms. Adensam:

Re: Nine Mile Point Unit 2
Docket No. 50-410

This letter clarifies our response dated August 18, 1986 (NMP2L 0822) to your staff regarding the Equipment Qualification program for Nine Mile Point Unit 2.

At this time, all Nine Mile Point Unit 2 equipment falling within the scope of 10CFR50.49 is environmentally qualified. All equipment will be installed as qualified prior to declaring that component operable.

Very truly yours,

C. V. Mangan

C. V. Mangan

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be clearly documented and supported by appropriate evidence. This ensures transparency and accountability in the financial process.

Furthermore, it is noted that regular audits are essential to verify the accuracy of the records. These audits should be conducted by independent parties to avoid any potential conflicts of interest. The findings of these audits should be promptly reported and addressed.

In addition, the document highlights the need for clear communication between all parties involved. Regular meetings and reports should be held to discuss the current status and any emerging issues. This proactive approach helps in identifying and resolving problems before they escalate.

Finally, it is stressed that adherence to all applicable laws and regulations is non-negotiable. Any deviations should be immediately reported to the relevant authorities. This commitment to legal compliance is fundamental to the integrity of the organization.
