Docket No. 50-410

Mr. C. V. Mangan, Senior Vice President  
Niagara Mohawk Power Corporation  
300 Erie Boulevard West  
Syracuse, New York 13202

Dear Mr. Mangan:

Subject: FSAR Changes Submitted July 24, 1986, Concerning  
Nine Mile Point, Unit 2 Organization and Training

In a letter dated July 24, 1986, you submitted changes which were to be made to the Nine Mile Point, Unit 2 FSAR in the areas of organization and training. The staff has reviewed the organization portion of that submittal and has the following concerns:

- 1) Figure 13.1-5 shows the addition of a new position entitled "Assistant to the Superintendent Operations Nuclear." What are the duties and qualifications of individuals in this new position?
- 2) Table 13.5-4 deletes the "Technical Review Panel" from the approvals column. Why has this review group been deleted? How will multi-discipline reviews of procedures be performed?

Upon receipt of satisfactory responses to the above questions the staff will complete its review of the organization portion of your July 24, 1986, letter. Resolution of these issues is required for fuel load.

The training portion of the July 24, 1986, letter is still under review.

Sincerely,

A handwritten signature in cursive script that reads "Mary F. Haughey".
