Docket No. 50-220

APPLICATION FOR AMENDMENT

TO

OPERATING LICENSE

Pursuant to Section 50.90 of the regulations of the Nuclear Regulatory Commission, Niagara Mohawk Power Corporation, holder of Facility Operating License No. DPR-63, hereby requests that Specification 4.4.5 and the Bases for Specifications 3.4.5 and 4.4.5 of the Technical Specifications set forth in Appendix A to that License be amended. The proposed changes have been reviewed in accordance with Section 6.5 of the Technical Specifications.

The proposed Technical Specifications changes are set forth in Attachment A to this application. Specification 4.4.5 is being proposed for amendment in order to add surveillance requirements to test for positive pressure in the control room. Supporting information and analysis which demonstrate that the proposed changes involve no significant hazards considerations pursuant to 10CFR50.92, are included as Attachment B.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy auditing of the accounts.

In the second section, the author details the various methods used to collect and analyze data. This includes both primary and secondary research techniques. The primary research involved direct observation and interviews with key stakeholders, while secondary research focused on reviewing existing literature and industry reports.

The third section presents the findings of the study. It highlights several key trends and patterns observed in the data. For example, there was a significant increase in the use of digital services over the past few years, which has led to a shift in consumer behavior. Additionally, the study found that customer loyalty programs are becoming increasingly important for businesses looking to retain their market share.

Finally, the document concludes with a series of recommendations for future research and practical applications. It suggests that further studies should be conducted to explore the long-term effects of digitalization on the economy. On a practical level, businesses are advised to invest in robust data management systems and to regularly update their strategies based on the latest market insights.

WHEREFORE, Applicant respectfully requests that Appendix A to Facility Operating License No. DPR-63 be amended in the form attached hereto as Attachment A.
