Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Gentlemen:

In our letter of September 30, 1986, providing additional information on the Nine Mile Point Unit 1 Second 10-Year Interval Inservice Inspection Program Plan, we stated our intention to submit additional relief requests by December 31, 1986. While performing an internal review of the program plan and the 1986 Inservice Inspection Summary Report, several areas requiring further correction or clarification were identified.

We now propose to submit additional relief requests and further clarifications to the Inservice Inspection Program Plan by March 31, 1987. This schedule is consistent with our letter of December 29, 1986, regarding the submittal of corrections to the 1986 Inservice Inspection Summary Report.

Sincerely,

NIAGARA MOHAWK POWER CORPORATION

C. V. Mangan

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes the need for transparency and accountability in all financial dealings.

2. The second part of the document outlines the various methods and techniques used to collect and analyze data. It highlights the importance of using reliable sources and ensuring the integrity of the information gathered.

3. The third part of the document provides a detailed overview of the current state of the industry and the challenges it faces. It discusses the impact of technological advancements and the need for innovation to stay competitive.

4. The fourth part of the document offers recommendations and strategies for addressing the identified challenges and improving overall performance. It suggests a focus on collaboration and continuous improvement.

5. The final part of the document concludes with a summary of the key findings and a call to action for all stakeholders to work together towards a common goal.
