Re: Nine Mile Point Unit 1  
Docket No. 50-220  
DPR-63

Gentlemen:

Niagara Mohawk proposes a change in the Bases for Sections 3.6.10.1 and 4.6.10.1 Nine Mile Point Unit 1 Technical Specifications. The change deletes the statement referring to a non-hazardous local leak rate testing to ensure penetration integrity. The statement referenced Surveillance Requirement 4.6.10.1.a.2, which is an incorrect reference. The actual reference should have been Surveillance Requirement 4.6.10.1.a.3. However, this Surveillance Requirement was deleted between the draft and issued versions of the fire protection Technical Specifications. This change is illustrated on the attached page.

The change in the Bases of Sections 3.6.10.1 and 4.6.10.1 is purely administrative in nature. As such, it will not reduce the margin of safety of Nine Mile Point Unit 1, but will reduce confusion in the Technical Specifications.

Sincerely,

NIAGARA MOHAWK POWER CORPORATION
