Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Gentlemen:

A letter dated November 14, 1986, from Mr. P. Eselgroth, Chief Reactor Projects Branch No. 2, requested Niagara Mohawk to evaluate an allegation regarding the capability to access the plant process computer and the meteorological computer systems by telephone lines. Niagara Mohawk has investigated this allegation and determined that while access to the computer systems can be performed by telephone lines, this access is adequately controlled.

Due to the sensitivity of this information, the details of the evaluation are not presented here. A summary of the evaluation was presented to the Nine Mile Point Resident Inspectors on January 26, 1987. The details of the evaluation are available for your further review at the site.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
