Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Gentlemen:

Niagara Mohawk's letter of February 17, 1987 (NMP1L 0135) transmitted proposed changes to the Nine Mile Point Unit 1 Technical Specifications. The proposed technical specification changes involve revisions to Specification 3.6.2, Protective Instrumentation and Specification 3.6.14, Radioactive Effluent Instrumentation. Although the wording of Note (i) on page 241mm in this proposed technical specification change was not intended to be revised, it was inadvertently altered. Attached is a corrected page 241mm which should be included with the proposed technical specification change. Please replace the page 241mm included in our submittal of February 17, 1987 with the attached page 241mm.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

T. E. Lempges
Vice President
