Re: Nine Mile Point Unit #2
Docket No. 50-410
NPF-69

Dear Mr. Russell:

In conformance with the Nine Mile Point Nuclear Station Unit #2 Technical Specifications, we are enclosing the Semi-Annual Radioactive Effluent Release Report for the period January 1, 1987, through June 30, 1987. Included in this report is (a) a summary of liquid, gaseous and solid effluents released from the station during the reporting period (Tables 1-3), (b) a summary of hourly meteorological data collected for the year 1987 (Table 4), and (c) a description of and justification for recent changes to the Offsite Dose Calculation Manual and Process Control Program (Tables 5 and 6). Attachments 1 and 2 are current versions of the PCP and ODCM, respectively.

The format used for the effluent data is outlined in Appendix B of Regulatory Guide 1.21, Revision 1. Dose assessments were made in accordance with the NMP-2 Offsite Dose Calculation Manual. Distribution is in accordance with Regulatory Guide 10.1, 10 CFR 50.36a (a) (2) and the Technical Specifications.

If you have any questions concerning the attached report, please contact Andrew M. Ross, Chemistry Unit Supervisor, at Nine Mile Point Unit #2 (315) 349-2615.

Very truly yours,

T. E. Lempges
Vice President
