Gentlemen: .

Subject: Special Inspection 50-410/87-32

This refers to the special safety inspection conducted by Messrs. W. Cook, C. Marschall and W. Schmidt of this office on September 1, 1987 to September 8, 1987 at Nine Mile Point Unit 2, Scriba, New York. A summary of the findings was presented to Mr. T. Lempges and other members of your staff at the conclusion of the inspection.

This inspection was conducted to review the circumstances leading to the Unit 2 shutdown on September 2, 1987 initiated to comply with Technical Specifications. The inspectors identified several apparent violations during their review of the events. We intend to schedule an enforcement conference to discuss these matters and will contact you to arrange a mutually agreeable time and date.

Your cooperation is appreciated.

Sincerely,

Original Signed By:

William F. Kane, Director
Division of Reactor Projects
