Re: Nine Mile Point Unit 2  
Docket No. 50-410  
NPF-69

Gentlemen:

By letter dated January 21, 1988 (NMP2L 1106), Niagara Mohawk requested a schedular exemption from the requirements set forth in 10 CFR 50.44(c)(3)(i) regarding providing an inerted containment. Subsequent to the submittal of this exemption request, the 100% rated thermal power trip test has been completed and the Nine Mile Point Unit 2 containment is now inerted. Therefore, the exemption request is no longer needed and Niagara Mohawk requests that it be withdrawn.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

C. D. Terry  
Vice President  
Nuclear Engineering and Licensing
